NUPAY'S PARTNERSHIPS

Collecting with Confidence

NuPay understands the importance of collecting school fees successfully and on time. In fact, NuPay's business model has one goal in mind, your success. NuPay has been at the forefront of managed electronic payment solutions since the turn of the century. The NuPay range of products ensures that regardless of the industry you operate in, it has a proven secure payment collection solution that will improve your collection success rate. NuPay is dedicated to assisting schools in creating a safer environment by providing innovative solutions that remove the risk of cash-on-hand.

OUR STRENGTHS

NuPay's main strengths, capabilities and skills lie in the warehousing and management of transactions with the highest levels of security and unmatched customer service. NuPay prides itself on relationship building, training and education, statistical analysis, consulting and advice, all of which help to increase your schools success rate in collecting fees. Furthermore, real-time and web-based services provide school's administrative staff complete control of all fee collections.

THE DUX PRODUCT SUITE

Consisting of NuPay's leading secure electronic payment solutions that have been successfully used in the South African educational sector for over fifteen years.

NuPay has bundled its most sought after product offerings used by both private and government schools throughout South Africa into one product suite aptly referred to as the DUX.

The DUX consists of:

- AEDO (Authenticated early debit order) – the only non-disputable debit order system available
- POS (Point of Sale) - real-time debit and credit card payment facility
- EPV (electronic prepaid vouchers)

These three products bundled into one product suite all available on a single terminal will ensure the safe collection of fees while minimising the risk of cash on hand, cash handling and the cost implications of cash deposits.

The DUX is the safest, most convenient and most successful payment collection offering available to education facilities in South Africa.

THE PERFECT PAYMENT SOLUTION FOR ALL LEVELS OF EDUCATION

ONE TERMINAL:

The convenience of loading future-dated AEDO and real-time POS transactions with the added benefit of pre-paid vouchers all on ONE terminal.

ONE LOG-IN FACILITY:

Providing fast and accurate web-based reporting and transaction uploading.

ONE MANDATE:

NAEDO normal debit order transactions are simplified and easily integrated into your administration system.

NUPAY AEDO (AUTHENTICATED EARLY DEBIT ORDER)

The leading, safe and secure managed payment solution for all private and government schools.

The basic aim of the NuPay AEDO system is to provide a facility whereby your school can process an early debit order via a point of sale terminal similar to current credit and debit card transactions. The main difference? Unlike real-time transactions, these transactions will be processed at a later date. Furthermore, the design of the system allows for the use of all participating banks' debit cards to be processed via AEDO.

IS NUPAY AEDO SAFE?

Yes. The relevant transaction is authenticated on the terminal and registered to NuPay, where it is then housed, managed and uploaded for payment to the relevant bank on the action date.

MAJOR BENEFITS OF NUPAY AEDO:

- The transaction is secure
- Full account verification is achieved when creating and authenticating a transaction
- By virtue of the authentication, the transaction cannot be disputed
- Up to 32 days tracking available
- The AEDO transaction is processed directly after the bank's credit run
- Full reporting and maintenance is available via the NuPay website
- Mobile terminals are available, giving you the ability to offer your services outside of the office
- Dedicated sales consultants, customer support consultants, call centre and technical consultants cater to all of your school's needs

LOG ON TO WWW.NUPAY.CO.ZA

- Your school is registered on the secure website and issued with a user name and password to access and view your portfolio
- Real-time updates allow you to see the exact status of your transaction
- You can draw reports on successful, failed and future transactions
- Reports can be customised by you as required
- All transaction information is emailed to your school on a daily basis
- Reports can be integrated with all administration systems

EDUCATIONAL PROVIDERS

- Peace of mind knowing that all collected transactions are guaranteed and cannot be disputed
- A collection specialist in the form of a Customer Relations Consultant is allocated to your school
- NuPay's reporting website places total control over the entire collection process in your hands
- NuPay is a PCI-DSS certified transaction service provider

NUPAY POS (POINT OF SALE)

POS is a secure, safe and user-friendly product that allows for the immediate collection of debit and credit card transactions.

THE MAIN FEATURES OF POS INCLUDE:

- Debit and credit cards accepted
- Real-time transactions
- Dependant on account balance – only successful if funds are available
- Web reports
- Air time vouchers available

For your convenience as an NuPay POS merchant the NuPay website offers the following on-line, real-time reporting:

- Debit card and credit card purchase transactions (successful and unsuccessful)
- Declined transactions (with reason for decline)
- Refunded transactions

EPV (ELECTRONIC PREPAID VOUCHER)

Offers prepaid vouchers to your customers through an NuPay POS terminal.

WHAT IS NUPAY EPV?

It is a virtual voucher platform that enables the sale of prepaid airtime on an integrated POS terminal.

HOW DOES IT WORK?

- Your school deposits funds into its NuPay EPV account
- When a customer purchases a voucher, you select the EPV type from the terminal to print the voucher and PIN
- The voucher value is debited from your NuPay EPV account

WHAT ARE THE BENEFITS?

- No need to buy physical stock
- Vouchers are issued from deposited funds, as and when they are required
- NuPay offers a highly competitive commission structure
